SECRET WARS

LOKI IS THE GODDESS OF STORIES.

THERE'S ANOTHER LOKI WHO'S AN EVIL OLD MAN FROM A FUTURE THAT WON'T HAPPEN – HE'S ATTACKING ASGARDIA WITH HELA, GODDESS OF DEATH, TYR, GOD OF WAR AND FIRST GENERAL OF HEL, THEIR ARMY OF THE DEAD, AND JORMUNGANDR, THE FABLED "MIDGARD SERPENT" DESTINED TO KILL THOR IN RAGNAROK.

THOR ISN'T AROUND – EITHER OF THEM – BUT THE REST OF ASGARD IS FIGHTING BACK AGAINST THE THREAT USING MIDGARDIAN WEAPONS TO HELP EVEN THE ODDS.

MEANWHILE, LOKI IS MORE CONCERNED WITH THE LIFE STORY OF HER BEST FRIEND – VERITY WILLIS, THE HUMAN LIE DETECTOR – THAN WITH THE IMMINENT END OF THE UNIVERSE.

Send letters to MHEROES@MARVEL.COM. Don't forget to mark "OKAY TO PRINT!"

Dearest writers,

I'll be honest, I was a bit upset by the previous issue. I thought you were taking Loki in a direction that would have just been devastating. But, after reading this month's issue, I am relieved and once again cheering on my favorite character. I'm very protective of this character, quite often being on the defense as I try to explain him to people.

Norse mythology is a large part of my ancestry, and also my favorite stories and characters as I was growing up. I love my trickster characters, Loki being the ultimate one. I'm always trying to explain to people that tricksters aren't villains. Antagonists often, but not villains. I've always seen him as a representation of human complexity, being neither fully good or bad. I avoided the comics for a long time, knowing how much they changed my beloved character. It took the movies, a friend, and this comic to really bring me in.

I appreciate how you've handled Loki's complexity, not just saying 'He's evil' (which drives me crazy and I'm constantly trying to explain to people that there's more to him than that). And I especially appreciate you going back to his mythological roots; that means a lot to me. I can't wait to see where he's going to go now that he knows who he really is.

Again, thank you!
Katie

Thanks, Katie! We're trying to leave Loki in a happy place, picking up the baton from those who came before – as we careen towards the slam-bang finale of our current storyline in issue #17, you'll find out how far we've managed to succeed. There's still plenty to play for.

To The AOA Mastermind(s),

I cannot hide my naked adoration of your portrayal of Loki thus far in his Agent of Asgard role. Once you revealed the alluring direction you planned to take Loki in his adventures, I found myself unable to look away from the chiseled magnificence of your story. All the other Asgardians must be green with envy at the golden opportunity Loki has scored in gaining you as his game master(s). His explosive adventures have left me with a burning passion for more, and though I am, at the moment, a bit nervous about the new chapter of his existence, I hope his story continues to be told for many years to come...

Thank you for working so hard and doing him such justice.

Sam P

Glad you like it, Sam! I got most of those puns, I think. Anyway, to respond in kind, things have been... HAIRY... for our favourite trickster, but... um... hang on, I'm going to email Gillen for help.

Dear the wonderful people that created LOKI: AGENT OF ASGARD,

THANK YOU. After watching the 'Thor' films, my old love for comics was re-awakened, and I fell in love with Loki... again. I loved him from the old comics I read as a kid, and the films of course. My friend over in the States sent me a message about an upcoming comic dedicated to my favorite character that caused me to practically scream with excitement. In the middle of class, I might add.

So naturally, every day I could I visited my area's only store that stocked comics (a rarity) until one day they had volume one, which I had no choice but to buy. And I loved it. So I went back and bought the rest of the released issues.

It's been an amazing comic so far. I loved seeing how Kid Loki was so scared for his future, and is scared of his past, and him being worthy to wield Mjolnir, and a darker side to Thor. And Verity is an AWESOME character.

I take my figurative hat off to you for the amazing pop culture references and UNICORN LOKI. THAT WAS GENIUS.

Anyway, thanks again, you amazing people.

Camryn,
Sydney, Australia

Thanks, Camryn! I hope we're still managing to give you the kind of LOKI comic you want as we push ahead into the strange territory of the LAST DAYS – things are only going to get wilder from here!

Dear Team Loki,

I just read issue #13 and noticed all girls wrote in so I decided I want to show there are some guy fans too! Anyway I wanted to tell you how great the series has been. The story feels self-contained and that's rare in the comic world these days. But it's also a great read. I think the Loki you guys write is really easy to relate to because I think everyone has to occasionally wrestle with two parts of themselves. Sometimes good and bad.

I myself am trying to go through a character change right now and when I saw Loki as the God of Stories on that last panel I thought it couldn't be cooler. Is he good? Evil? Or just the right amount of both? I guess we'll see.

Sincerely,
Nathan Simon

P.S. I loved his new one horn, broken tooth look.

Thanks, Nathan! And good luck with whatever you're going through right now. We're thinking of you.

I just realized I neglected to drop you a note after reading Loki #13.

What I meant to write in with was:

I spent the whole issue thinking "I really hope he ends up as the god of stories." So I was very very pleased by the final page. Thank you for navigating to that ending; very nicely done.

Looking forward to what comes next.

Jed

Thank you, Jed! We're pleased you're pleased. And well done on guessing what we were up to!

That's all the room we have this week – next ish, things get bigger, madder, stranger... and trickier. Keep the faith – and keep it Loki!
